

NORTH COUNTRY BLS Adjuncts Notice of Intent (NOI) and Application

Agency Name: _____ Agency Code: _____

Agency Medical Director: _____

Agency Director/Chief: _____

The following BLS Adjuncts require a Notice of Intent (NOI) to the REMAC. This NOI aims to allow for regional tracking of adjuncts that are now part of the BLS curriculum but should be tracked by the region. If submitting an NOI for multiple adjuncts, only one (1) DOH 4362 Medical Director Verification form is required.

☐ Albuterol ☐ Naloxone ☐ Syringe Epinephrine ☐ BLS Blood Glucometry ☐ Epi Auto-Injector
☐ Moxifloxacin ☐ Ipratropium ☐ Acetaminophen/Ibuprofen

Agency SOPs should be attached to this form for Syringe Epinephrine & Naloxone, Wadsworth Limited Lab License is required for BLS Blood Glucometry, and should be attached to this form.

The following BLS Adjuncts require approval from the REMAC for an Agency to participate in. All paperwork must be submitted to the Program Agency two weeks prior to the REMAC Meetings to ensure formal action is taken on the application for the following BLS Adjuncts. In certain circumstances, the Regional Medical Director can grant provisional approval to an Agency so long as all appropriate documents are submitted. If applying for multiple adjuncts, only one (1) DOH 4362 Medical Director Verification form is required.
