## REMAC Advisory 03-11

### Securing Ambulances

**Purpose:** To remind EMT's and ambulance drivers to secure their ambulance when not in immediate proximity to same.

**Background:** Unsecured ambulances have many materials that are of interest to and could provide harm to the general public. It was noted at the REMAC meeting of October 25<sup>th</sup>, 2010 that it is not unusual for rigs to be unsecured while the EMT's are providing care not in or around said vehicle.

**Advisory:** Ambulance's must be secured when a member of that squad is not in the immediate proximity of that vehicle to ensure the security of the vehicle and all its contents.

**Proudly Serving Clinton, Essex, Franklin, Warren, and Washington Counties.**
