

**North Country Emergency Medical Services
Rapid Sequence Intubation Program**

Agency Credentialing Authorization

Pursuant to the North Country Emergency Medical Services (NCEMS) REMAC Policy and Procedure for Rapid Sequence Induction Program, the following agency will fulfill all criteria to provide RSI. The agency hereby affirms the following:

Current, unrestricted authorization from the NY State Department of Health and the NCEMS REMAC to provide Advanced Life Support care.

Current, unrestricted authorization from the NY State Department of Health to carry and administer controlled substances to patients.

Will abide by the RSI Protocol and the RSI Policies and Procedures approved by the NCEMS REMAC, including agreeing to provide the RSI Paramedic the proper medications and equipment as detailed in the Protocol and following all QA requirements as detailed in the Policy.

Will make RSI Paramedics available to all EMS agencies in the region when RSI skills may be required.

Will notify the NCEMS Program Agency immediately should any of the above criteria are no longer met.
