Date: 4/03/17
Updated: 01/27/2020

Re: BLS Narcan, Albuterol,
Blood Glucometry, Syringe
Epinephrine and 12-Lead ECG
Acquisition

Page 1 of 1

Supersedes: 08-05, 11-06,
15-01, 16-01, 16-02

- BLS Albuterol
 - Refer to New York State (NYS) Department of Health (DOH) Policy Statement 12-01, NYS DOH Basic Life Support (BLS) Protocols for the use of Albuterol. EMT's credentialed and trained in the region may follow all NYS Collaborative Protocols regarding the use of albuterol.
- BLS Narcan
 - Refer to New York State (NYS) Department of Health (DOH) Policy Statement 13-01, NYS DOH Basic Life Support (BLS) Protocols or NYS Collaborative Protocols.
- BLS Blood Glucometry
 - Refer to New York State (NYS) Department of Health (DOH) Policy Statement 05-04 & 12-01, NYS DOH Basic Life Support (BLS) Protocol and NYS Collaborative Protocols.
 - Regional Blood Glucometry Application should be completed following receipt of limited laboratory registration certificate and sent to the North Country EMS Program Agency.
 - https://www.wadsworth.org/sites/default/files/WebDoc/1383076153/FINAL_DOH-4081_Initial_LSL_App_0116.pdf
- BLS 12-Lead Acquisition- Not approved in the North Country Region
- BLS Syringe Epinephrine Administration
 - Refer to New York State (NYS) Department of Health (DOH) Policy Statement 17-06, NYS DOH Basic Life Support (BLS) Protocols and NYS Collaborative Protocol
 - North Country REMAC recommends the thigh as preferred sight of administration and recommends that agencies continue to utilize specially marked syringes with "A" and "P" on them.
- Regional Application forms for each modality can be found at
 - <https://fdrhpo.org/ems/resource-library>
 - Use key word search to locate form
- Each application must include a DOH-4362 Medical Director Verification form signed by service medical director
 - <https://www.health.ny.gov/forms/doh-4362.pdf>
- All EMT's in agencies approved for any of the above modalities must register in the online CME system. <http://northcountry.cnyems.org/>
