

Emergency Medical Services

Not all healthcare takes place inside doctors' offices, hospitals or health centers. When a community member needs care as fast as possible, Emergency Medical Service (EMS) providers are the first to respond, providing critical care at the scene, in the back of an ambulance, or even aboard a rescue boat, helicopter, or other emergency vehicle.

Because of their role on the front line of healthcare, EMS operations require a great deal of planning to ensure consistency, quality and seamless cooperation with local hospitals, 911 centers and other agencies. In the North Country, FDRHPO assists with this planning and facilitation through its partnership with the region's **EMS Program Agency**.

Our latest initiatives include:

Ensure all EMS agencies have access to electronic medical records

Improve pre-hospital coordination between EMS agencies, hospitals, and 911 dispatch centers

Develop & maintain a learning management system to assist EMS providers in maintaining their certification

Maintain an "Opioid Overdose Center" offering Narcan to all first responder agencies

Advocate for a stronger, more sustainable EMS system

Provide our EMS agencies with continuous quality improvement, policy & regulatory guidance, technical support & more

As one of 17 program agencies across New York State, the FDRHPO EMS Program Agency oversees operations of close to 200 EMS organizations in an eight-county region in Northern New York, including the counties of Clinton, Essex, Franklin, Jefferson, Lewis, St. Lawrence, Warren, and Washington — most of which are staffed by volunteers from their communities.

For all of these EMS organizations, the program agency provides...

**Continuous Quality Improvement
Policy & Regulatory Guidance
EMS Training & Credentialing
Technical Support**

....and more!

Through the guidance of the Regional Emergency Medical Services Council (REMSCO) and the Regional Emergency Medical Advisory Committee (REMAC), the program agency also works with educational institutions, 911 centers, hospital emergency departments, law enforcement officials and other stakeholders to ensure the entire EMS system runs smoothly. These two regulatory bodies are comprised of regional experts who meet quarterly to discuss current policies and procedures.

In addition to all this, the FDRHPO EMS Program Agency has hosted an educational EMS conference in the region for over 20 years.

Until merging with Mountain Lakes EMS Program Agency in July 2022, the FDRHPO EMS Program Agency provided oversight and support to the three counties of Jefferson, Lewis, and St. Lawrence. After the merger, its footprint expanded to eight counties, more than doubling the number of agencies in its coverage area. Here's how it breaks down:

Clinton County — 23

Lewis County — 8

Essex County — 17

St. Lawrence County — 36

Franklin County — 25

Warren County — 22

Jefferson County — 35

Washington County — 20
